

**NOTICE OF PUBLIC MEETING
ARIZONA SEX OFFENDER MANAGEMENT BOARD
ADULT GUIDELINES AND STANDARDS SUBCOMMITTEE**

Pursuant to Arizona Revised Statutes (A.R.S.) § 38-431.02, notice is hereby given to the members of the **Arizona Sex Offender Management Adult Guidelines and Standards Subcommittee** (the “Subcommittee”) and to the general public that the Subcommittee will hold a meeting, open to the public, on **May 13, 2026**.

The **May 13, 2026** Subcommittee meeting will be a virtual, online access meeting. This means that the public has the opportunity to participate virtually. Information on how the public may participate is outlined below.

Please note the location of the **May 13, 2026** Subcommittee meeting:

Wednesday, May 13, 2026 · 1:00 p.m. – 2:30 p.m.

Virtual Meeting Access: Microsoft Teams meeting: [Join](#)

<https://teams.microsoft.com/meet/274984719233058?p=hEn3bjdWbTtomzQmas>

Meeting ID: 274 984 719 233 058

Passcode: ZW9Hk7KK

Dial in by phone : [+1 480-536-7328,,629849173#](tel:+14805367328629849173)

Phone conference ID: 629 849 173#

A copy of the meeting agenda is attached. The Subcommittee reserves the right to change the order of items on the agenda.

Pursuant to A.R.S. § 38-431.02(H), the Subcommittee may discuss and take action concerning any matter listed on the agenda.

Pursuant to A.R.S. § 38-431.03(A)(2), the Subcommittee may vote to convene in executive session, which will not be open to the public, for discussion or consideration of records exempt by law from public inspection.

Pursuant to A.R.S. § 38-431.03(A)(3), the Subcommittee may vote to convene in executive session, which will not be open to the public, for legal consultation and advice concerning any item on the agenda.

Persons with a disability may request reasonable accommodation, such as a sign language interpreter, by contacting Ms. Ashlesha Naik at 602-223-2611 or via email at AZSOMB@AZDPS.GOV. Requests should be made as early as possible to allow time to arrange the accommodation(s).

DATED AND POSTED this 7th Day of May 2026.

By *Jenna G. Mitchell*

**Major Jenna G. Mitchell
AZSOMB Program Manager**

**ARIZONA SEX OFFENDER MANAGEMENT BOARD
ADULT GUIDELINES AND STANDARDS SUBCOMMITTEE
Wednesday, May 13, 2026
Regular Session**

1:00 PM

ALL ITEMS ON THIS AGENDA ARE OPEN FOR DISCUSSION AND POSSIBLE ACTION, INCLUDING REPORTS AND ACTION ITEMS.

THE AGENDA AND BACKGROUND MATERIAL ARE PROVIDED TO BOARD MEMBERS ELECTRONICALLY (WITH THE EXCEPTION OF MATERIAL RELATING TO POSSIBLE EXECUTIVE SESSIONS) AND POSTED ON THE ARIZONA PUBLIC MEETING WEBSITE AT <https://publicmeetings.az.gov/>. ADDITIONALLY, A HARD COPY OF THE AGENDA IS AVAILABLE AT 2222 WEST ENCANTO BLVD., PHOENIX, AZ. PLEASE EMAIL AZSOMB@AZDPS.GOV TO INSPECT THE DOCUMENTS.

REMINDER: As required by Open Meeting Law, please refrain from engaging in conversations, texts, emails and other forms of communication with individual board members. All questions, comments, deliberations and decisions should be stated to the public body as a whole in open session.

1. ROLL CALL

2. MATTERS FOR DISCUSSION AND POSSIBLE ACTION

- a. Discussion of the Proposal for Implementation of Standardized Pre-sentence Investigation and Sex Offender Specific Evaluation Protocol
- b. Old Business: Discussion of Standards for the Adult Sex-Offense Specific Evaluations
- c. Future Agenda Items

3. THE COMMITTEE MAY VOTE TO CONVENE AND ENTER INTO AN EXECUTIVE SESSION FOR ANY REASON AUTHORIZED BY A.R.S. § 38-431.03 including personnel matters, confidential records, legal advice, litigation, contract negotiations, employee salary discussions, and international or tribal negotiations. (To do so, the public body must first vote publicly to enter executive session, specifying the reason, and no legal action or final decisions can be made during the session. All motions and voting must be conducted after return to the public session.)

4. ADJOURNMENT

NEXT MEETING: June 10, 2026, 1 p.m. - 2:30 p.m.

**PROPOSAL FOR IMPLEMENTATION OF STANDARDIZED
PRESENTENCE INVESTIGATION AND SEX OFFENSE-
SPECIFIC EVALUATION PROTOCOL**

BY

DR. BRECKEN BLADES

Proposal for Implementation of Standardized Presentence Investigation and Sex Offense-Specific Evaluation Protocol

Submitted May 2026 to AZSOMB by the Adult Standards and Guidelines Subcommittee

Purpose

This proposal establishes a standardized, statewide protocol for Presentence Investigations (PSIs) that include sex offense-specific evaluations. The purpose of the PSI is to provide the court with relevant, comprehensive information upon which to base sentencing decisions. The inclusion of a sex offense-specific evaluation ensures a consistent, evidence-based approach to identifying an offender's risk and protective factors, treatment needs, and amenability to treatment, consistent with guidance from the Association for the Treatment and Prevention of Sexual Abuse (ATSA) and the Sex Offender Management Assessment and Planning Initiative (SOMAPI).

Scope of Application

Each individual convicted of a sexual offense shall be the subject of a PSI that includes a sex offense-specific evaluation when ordered by the court. This proposal prioritizes implementation for individuals sentenced to three (3) years or less of incarceration, as these individuals are more likely to return to the community in a shorter timeframe, requiring timely and accurate assessment to inform supervision and treatment planning (SOMAPI, 2017). Individuals serving longer sentences may undergo a sex-offense specific evaluation upon their release to the community to ensure accurate and updated information is acquired.

Purpose of Sex Offense-Specific Evaluation

The sex offense-specific evaluation is designed to:

- Establish a baseline assessment of risk and protective factors
- Determine the individual's need for treatment and the appropriate type of intervention
- Assess amenability and responsiveness to treatment
- Identify additional criminogenic and behavioral health needs
- Inform recommendations regarding community supervision, when appropriate

These functions align with the Risk-Need-Responsivity (RNR) model as developed by Donald Andrews and James Bonta, which is widely endorsed in correctional best practices.

Evaluation Process and Standards

Evaluations shall be conducted using validated, empirically supported assessment tools and structured professional judgment, consistent with ATSA Practice Guidelines (2017; updated editions) and SOMAPI recommendations.

The PSI, including the sex offense-specific evaluation, shall be completed by a pre-sentence investigator who is specially trained in sex offender management.

The completed PSI report shall:

- Include recommendations relevant to sentencing, supervision, and treatment
- Be submitted to the court in accordance with judicial timelines
- Be provided by the Probation Department to the Department of Corrections when applicable
- Follow the individual throughout placements within the criminal justice system to ensure continuity of care and supervision (SOMAPI, 2017; ATSA, 2017)

Referral and Required Documentation

When referring an individual for a sex offense-specific evaluation, the referral packet may include, but is not limited to:

- Police reports
- Victim impact statements
- Child protection reports
- Criminal history records
- Available risk assessment summaries
- Prior evaluations and treatment reports
- Prior supervision records
- Signed releases of information
- Any additional materials requested by the evaluator

Comprehensive data collection is consistent with structured professional judgment models and best practices outlined by American Psychological Association forensic guidelines.

Pre-Plea Evaluations

Sex offense-specific evaluations conducted prior to an admission or adjudication of guilt (pre-plea) may not meet the requirements of these standards (ATSA, 2017). If a PSI writer receives a pre-plea evaluation that is incomplete or noncompliant:

- The PSI writer may notify the court
- Recommendations may be provided upon request of the court
- The PSI writer may seek supplemental information from the evaluator to address deficiencies and ensure compliance

Funding Structure

The cost of the sex offense-specific evaluation shall be the responsibility of the individual being evaluated. However, to promote equitable access:

- Financial assistance may be provided based on demonstrated financial need

This approach is consistent with access-to-services considerations noted in SOMAPI (2017).

Cost Determination

The cost of evaluations will be established through a comprehensive national and statewide financial analysis to ensure:

- Reasonable and consistent pricing
- Alignment with professional standards and comparable services
- Sustainability for providers while maintaining accessibility

Conclusion

The integration of sex offense-specific evaluations with standardized PSIs strengthens sentencing accuracy, enhances public safety, and promotes consistency across jurisdictions. By aligning with nationally recognized best practices, including those from ATSA and SOMAPI, and prioritizing individuals with shorter-term sentences, this proposal supports a balanced approach to accountability, rehabilitation, and community protection.

DR. SHERIDYN MILLER'S COMMENTS ON PROPOSAL FOR
IMPLEMENTATION OF STANDARDIZED PRESENTENCE
INVESTIGATION AND SEX OFFENSE-SPECIFIC EVALUATION
PROTOCOL

Proposal for Implementation of Standardized Presentence Investigation and Sex Offense-Specific Evaluation Protocol

Submitted May 2026 to AZSOMB by the Adult Standards and Guidelines Subcommittee

Purpose

This proposal establishes a standardized, statewide protocol for Presentence Investigations (PSIs) that include sex offense-specific evaluations. The purpose of the PSI is to provide the court with relevant, comprehensive information upon which to base sentencing decisions. The inclusion of a sex offense-specific evaluation ensures a consistent, evidence-based approach to identifying an offender's risk and protective factors, treatment needs, and amenability to treatment, consistent with guidance from the Association for the Treatment and Prevention of Sexual Abuse (ATSA) and the Sex Offender Management Assessment and Planning Initiative (SOMAPI).

Scope of Application

Each individual convicted of a sexual offense shall be the subject of a PSI that includes a sex offense-specific evaluation when ordered by the court. This proposal prioritizes implementation for individuals sentenced to three (3) years or less of incarceration, as these individuals are more likely to return to the community in a shorter timeframe, requiring timely and accurate assessment to inform supervision and treatment planning (SOMAPI, 2017). Individuals serving longer sentences may undergo a sex-offense specific evaluation upon their release to the community to ensure accurate and updated information is acquired.

Purpose of Sex Offense-Specific Evaluation

The sex offense-specific evaluation is designed to:

- Establish a baseline assessment of risk and protective factors
- Determine the individual's need for treatment and the appropriate type of intervention
- Assess amenability and responsivity to treatment
- Identify additional criminogenic and behavioral health needs
- Inform recommendations regarding community supervision, when appropriate

These functions align with the Risk-Need-Responsivity (RNR) model as developed by Donald Andrews and James Bonta, which is widely endorsed in correctional best practices.

Evaluation Process and Standards

Evaluations shall be conducted using validated, empirically supported assessment tools and structured professional judgment, consistent with ATSA Practice Guidelines (2017; updated editions) and SOMAPI recommendations.

The PSI, including the sex offense-specific evaluation, shall be completed by a pre-sentence investigator who is specially trained in sex offender management.

Commented [SM1]: Operationally, would this be probation? We would need to consider funding sources for the PSI including the evaluation.

The completed PSI report shall:

- Include recommendations relevant to sentencing, supervision, and treatment
- Be submitted to the court in accordance with judicial timelines
- Be provided by the Probation Department to the Department of Corrections when applicable
- Follow the individual throughout placements within the criminal justice system to ensure continuity of care and supervision (SOMAPI, 2017; ATSA, 2017)

Referral and Required Documentation

When referring an individual for a sex offense-specific evaluation, the referral packet may include, but is not limited to:

- Police reports
- Victim impact statements
- Child protection reports
- Criminal history records
- Available risk assessment summaries
- Prior evaluations and treatment reports
- Prior supervision records
- Signed releases of information
- Any additional materials requested by the evaluator

Comprehensive data collection is consistent with structured professional judgment models and best practices outlined by American Psychological Association forensic guidelines.

Pre-Plea Evaluations

Sex offense-specific evaluations conducted prior to an admission or adjudication of guilt (pre-plea) may not meet the requirements of these standards (ATSA, 2017). If a PSI writer receives a pre-plea evaluation that is incomplete or noncompliant:

- The PSI writer may notify the court
- Recommendations may be provided upon request of the court
- The PSI writer may seek supplemental information from the evaluator to address deficiencies and ensure compliance

Funding Structure

The cost of the sex offense-specific evaluation shall be the responsibility of the individual being evaluated. However, to promote equitable access:

- Financial assistance may be provided based on demonstrated financial need

Commented [SM2]: By the county? Probation?

This approach is consistent with access-to-services considerations noted in SOMAPI (2017).

Cost Determination

The cost of evaluations will be established through a comprehensive national and statewide financial analysis to ensure:

- Reasonable and consistent pricing
- Alignment with professional standards and comparable services
- Sustainability for providers while maintaining accessibility

Conclusion

The integration of sex offense-specific evaluations with standardized PSIs strengthens sentencing accuracy, enhances public safety, and promotes consistency across jurisdictions. By aligning with nationally recognized best practices, including those from ATSA and SOMAPI, and prioritizing individuals with shorter-term sentences, this proposal supports a balanced approach to accountability, rehabilitation, and community protection.

MS. MISSY MUSICK'S COMMENTS ON PROPOSAL FOR
IMPLEMENTATION OF STANDARDIZED PRESENTENCE
INVESTIGATION AND SEX OFFENSE-SPECIFIC EVALUATION
PROTOCOL

Proposal for Implementation of Standardized Presentence Investigation and Sex Offense-Specific Evaluation Protocol
feedback

My feedback. I strongly believe we need to address possibility of reunification and/or unification (contact with minors) at this point for a variety of reasons. I am sure several of the assessment tools will address this, and I believe this should be specifically stated in the PSI. I also see pros and cons to at least mentioning possibility of whether or not identifying an appropriate candidate for Chaperone training would be beneficial at this point.

Thank you and see you next week
Missy Musick LPC

AZSOMB ADULT GUIDELINES AND STANDARDS SUBCOMMITTEE

May 13, 2026

IDAHO ASSESSMENT

BY

MR. BLAKE BARNEY

The assessments most commonly referenced or required in Idaho SOMB-related evaluations include:

Static-99R

Actuarial risk assessment for adult male sexual offenders.

Estimates long-term sexual recidivism risk.

Idaho SOMB specifically references its use in provider guidance.

Stable-2007

Measures dynamic risk factors that can change over time (relationships, impulsivity, sexual self-regulation, etc.).

Often paired with Static-99R.

Acute-2007

Evaluates short-term or rapidly changing risk factors.

Used for supervision and current risk management.

MSI-II (Multiphasic Sex Inventory-II)

Sexual history and psychosexual self-report inventory.

Idaho SOMB has specifically stated that MSI-II testing is again required in SOMB-certified psychosexual evaluations.

MMPI-2 or MMPI-2-RF

Broad personality and psychopathology testing.

Used to assess mental health issues, defensiveness, deception, antisocial traits, depression, anxiety, etc.

Abel Assessment for Sexual Interest

Measures sexual interest patterns and attraction profiles.

Clinical Sexual History Interview

Extensive interview covering:

developmental history

family background

offense details
sexual history
relationship history
trauma/substance abuse history
cognitive distortions and grooming behaviors
Collateral Record Review
Police reports
Discovery
Victim statements
Prior treatment records
Criminal history
PSI materials
Medical/mental health records

Polygraph Examination (sometimes included)

Often a sexual history or offense disclosure polygraph.

More common post-conviction, but may be included pre-sentence depending on evaluator/court expectations. Idaho standards allow physiological measures if the client consents.

Psychopathy / antisocial screening

Sometimes includes:

PCL-R (Psychopathy Checklist-Revised)

MCMII-IV

other personality inventories
